

What is claimed is:

- 1 1. A laptop computer case comprising:
2 a tray having a back side, a bottom and at least one
3 support;
4 a first air space formed between the laptop computer
5 and the tray by the at least one support
6 engaging the laptop computer;
7 a lid having a liner pad, a top and a back side;
8 a spacer;
9 a first hinge attaching the spacer to the back side
10 of the lid;
11 a second hinge attaching the spacer to the back side
12 of the tray; and
13 a second air space formed between the lid and the
14 tray when lid and the spacer are rotated about
15 the first and second hinges respectively to
16 bring the top of the lid adjacent the bottom of
17 the tray.
- 1 2. The laptop computer case according to claim 1 wherein the
2 at least one support further comprises:
3 at least one engagement stop, each of the at least one
4 engagement stops secured to the tray at an
5 attachment location; and
6 at least one pad each of the at least one pads secured to
7 the tray at a pad attachment location.
- 1 3. The laptop computer case according to claim 2 wherein the
2 attachment location of the at least one engagement
3 stop may be adjusted relative to the tray, and the
4 pad attachment location of the at least one pad may
5 be adjusted relative to the tray.

- 1 4. The laptop computer case according to claim 1 wherein the
2 tray further comprises:
3 a front side hingeably attached to the tray; and
4 a wrist support secured to the front side, the front side
5 rotating to expose the wrist pad for use.
- 1 5. The laptop computer case according to claim 1 further
2 comprising at least one door access hingeably
3 attached to the tray.
- 1 6. The laptop computer case according to claim 1 further
2 comprising:
3 at least one privacy screen.
- 1 7. The laptop computer case according to claim 1 further
2 comprising:
3 a carrying strap retractably attached to the case, and
4 a biasing means to retract the carrying strap within the
5 case.
- 1 8. The laptop computer case according to claim 7 wherein the
2 biasing means further comprises:
3 a pulley attached to the biasing means, the handle is
4 looped around the pulley and attached to the case.
- 1 9. The laptop computer case according to claim 1 further
2 comprising:
3 a light removably attached to the case.
- 1 10. The laptop computer case according to claim 1 further
2 comprising:
3 a mouse pad.
